

WELDING TRAINING

Full-time Day & Part-time Evening Classes

Nations is a registered
Training organisation
with CTET.

ABOUT CITY & GUILDS

Successful candidates will receive certification based on the welding area and level completed. The programme is offered through Nations University School of Technology in partnership with City & Guilds UK. City & Guilds offers a range of products and services, mainly in vocational and technical education. One of their traditional strengths is the development of qualifications to ensure people learn skills that are work relevant and recognised by employers. A key part of these qualifications are assessments which are designed to measure the practical skills and knowledge of learners.

ABOUT THE PROGRAMME

The Welding Training Programme at Nations University School of Technology is designed to develop practical welding skills for persons who wish to enter or advance in the welding field. The programme offers training in MMA/Stick Welding, MIG/Flux Core Welding, and TIG Welding, with options available at Levels 1, 2, and 3. Both full-time day and part-time evening classes are available, making the programme suitable for school leavers, working adults, and persons seeking to upgrade their technical skills. Nations is also a registered training organisation with CTET.

PROGRAMME LEVELS

The programme is offered across three progressive levels:

Level 1 – 60 hours

- Suitable for beginners who are new to welding and need to build a strong foundation in basic welding techniques, safety, tools, equipment, and workshop practice.

Level 2 – 60 hours

- Designed for learners who already have basic welding knowledge and wish to strengthen their technique, accuracy, confidence, and ability to complete more structured welding tasks.

Level 3 – 90 hours

- Suitable for more advanced learners who want to refine their welding skills, improve workmanship, and prepare for more demanding welding applications in industry.

WELDING AREAS OFFERED

Participants may choose from the following welding areas:

MMA / Stick Welding

- A widely used welding process suitable for construction, fabrication, repair, and maintenance work.

MIG / Flux Core Welding

- A practical welding process commonly used in fabrication, manufacturing, and industrial environments where speed and efficiency are important.

TIG Welding

- A more specialised welding process used where precision, neatness, and high-quality finishes are required.

WHAT WILL YOU LEARN?

Participants will develop practical skills and knowledge in areas such as:

- Welding safety, workshop behaviour, and correct use of personal protective equipment
- Identification and use of welding tools, machines, and accessories
- Preparation of materials before welding
- Basic and progressive welding techniques based on the selected process
- Welding joints, positions, and practical applications
- Good workmanship, accuracy, and quality control
- Safe handling of equipment and materials in a welding environment
- Confidence to complete practical welding tasks under supervision

COST	Level 1	Level 2	Level 3
• MMA (Stick Welding)	\$205,000	\$215,000	\$300,000
• MIG (Flux Core Welding)	\$210,000	\$225,000	\$305,000
• TIG	\$235,000	\$245,000	\$305,000

ENTRY REQUIREMENTS:

There are no formal entry requirements for candidates undertaking these qualifications.
