ABOUT THE COURSE

This course adopts a practical and applied business curriculum and aims to develop an advanced knowledge of organisations and their effective management in the dynamic competitive global context, and the ability to creatively apply this knowledge and understanding to complex issues to systematically and innovatively enhance strategic business and management practice.

There are six entry points throughout the year. This allows you to start when it is most suitable for you.

In addition to the Business Administration MBA, students can specialise in:

MBA - Logistics & Supply Chain Management
This pathway equips students with strategic and analytical skills needed to efficiently manage the movement of goods, information and resources across global supply networks.

MBA - Petroleum and Renewable Energy Management
This pathway is designed to equip students with the advanced knowledge and critical insight needed to thrive in today's dynamic global energy sector.
